

## Morris Minor **Restoration Parts**

.....

## Ordering Information

### Notification of prices

Due to the volatility of world markets and currency fluctuations the prices in this catalogue are subject to change. Moss make every attempt to keep prices competitive and stable, however in common with all other suppliers in our industry, we reserve the right to alter these prices without prior notice.

For the latest prices, please visit our website [www.moss-europe.co.uk](http://www.moss-europe.co.uk). All prices are per unit (unless otherwise stated) and include (UK) VAT at 20% (where applicable) and are correct at the time of going to print. Postage and packaging is not included. E&OE. Where the price is replaced with the word "£Call" this part is generally not available or only available to order. Please call our sales staff as we may be able to assist you in locating the part or a suitable replacement part.

### Product supersessions

Moss Europe's policy is to detail the most up to date part information in our catalogues. Where possible parts are kept to original specification. However, in some instances we have to supersede to the most viable alternative product to maintain supply and keep cars on the road. Every effort is made to ensure high quality products.

### UK ordering

We accept orders by mail, telephone, e-mail, fax and on-line at [www.moss-europe.co.uk](http://www.moss-europe.co.uk). If you have the opportunity, we invite you to visit one of our branches. Remember, supplying details of your car, (i.e. engine, commission or Vehicle Identification Number (VIN) LHD or RHD, year of manufacture and any modifications) saves time and helps us to help you. Please inform us of your customer number, as this will speed up the processing of your order.

### Overseas ordering

We accept orders by mail, telephone, e-mail, fax and on-line at [www.moss-europe.co.uk](http://www.moss-europe.co.uk). If you visit the U.K. please come and visit one of our branches. When ordering, please ensure that you enclose full details of your name, address and customer number, plus details of your car (i.e. engine, commission or Vehicle Identification Number (VIN) LHD or RHD, year of manufacture and any modifications).

Please note: Overseas orders are often subject to local import duties, taxes and Customs clearance, which will need to be paid for at the point of entry. These charges are NOT included in the price of the goods or delivery prices. All relevant Customs forms and documentation needed to ensure the order arrives with the minimum of delay, will be included with your shipment. If you have any special requirements, please contact us to discuss them. Delivery charges are dependent upon the size and weight of the shipment. If a quotation is required prior to placing an order, please contact the export department at your chosen branch and they will be pleased to supply a full quotation.

### Parts back-order system

A back-order system is used when a part is not in stock at the time of ordering. If the item is expected to become available within 6 months, then it will be put on back-order, unless the customer instructs us otherwise. When we have the parts in stock, the back-order will be processed automatically and the item will be dispatched to the customer. If the particular part becomes No Longer Available (NLA) or does not become available within 6 months the back-order will be cancelled. If you are unsure when you placed a back-order contact your local branch.

### Dispatch & delivery methods

Orders for delivery in the UK may be dispatched by regular post (for small/lightweight items), or through a Next Day courier. Please contact us for the best delivery option for your order. We are constantly striving to improve the service we offer, so please contact us for the latest delivery prices. For delivery outside the UK we offer the following services:

- **Economy delivery (by road):** 2 to 5 days.
- **Express delivery (by air):** 1 to 2 days (Guaranteed) - next day service to most countries.
- **For small and low value orders we also use airmail.**

For these services, please ask for prices and the best delivery option when you place your order. Most deliveries (except airmail) are 'trackable', (inc: e-mail updates and internet access for selected carriers). Please remember, all carriage charges are dependent on weight band, volume, destination and delivery time. If a quotation is required prior to placing your order, please contact a member of the sales department. Alternatively, you can arrange your own delivery and dispatch.

### Windscreen delivery information

We always suggest that windscreens should be collected from one of our branches to ensure you are able to transport your glass with the utmost of care. However, we understand that this is not always possible.

To minimise the possibility of damage to the windscreen in the shipping process, it is now Moss Europe's policy to ship windscreens packed in a specially designed heavy duty 'Tri-Wall' cardboard box. The price of this box is £35.00 (inc VAT), non-refundable and is included in the price of the product. The crate's dimensions will also increase shipping costs, particularly in EU countries. The crate dimensions are 150cm x 33cm x 74cm. The maximum volumetric weight is 92kgs. For more information please contact your nearest Moss branch.

### Hazardous goods delivery information

At the time of going to print, Moss Europe Ltd conforms to international shipping regulations regarding packaging and transportation of Hazardous Goods by road and sea freight (only). Due to these international shipping regulations and licencing rules all goods deemed as Hazardous are currently available for shipping to the UK and Europe only. If you place an order containing Hazardous goods and your shipping address is not in the UK or Europe, we will not be able to ship this item to you. Please contact your local branch or visit our website [moss-europe.co.uk](http://moss-europe.co.uk) for the latest delivery information of Hazardous goods.

### Quotations & payment methods

We will be pleased to provide a full parts quotation detailing price, availability and relevant shipping costs. Payment may be made by cash, personal cheque (to the card guarantee limit), Certified Bank Draft, Sterling Travellers Cheques and credit or debit card including: Mastercard, Visa, Delta. If you intend to make payment by Cheque or Bankers Draft when

using our fast mail-order parts service, please confirm parts availability and carriage charges. We can accept payments using PayPal for email and phone orders only.

### Value added tax (VAT)

Value Added Tax (VAT) at the current rate will be levied on all orders being dispatched to all countries within the European Community. EU countries may be charged at their local VAT rate, please contact us or see website for details. VAT is not charged on goods dispatched to countries outside of the EU. However, such orders are often subject to local import duty, taxes and Customs clearance, which MUST be paid by you at the port of entry. Such charges are not included in the cost of the goods or delivery prices.

### Exchange units

We are able to offer a full rebuild service on numerous major components in our product range. We offer this service as an alternative to direct replacement parts, or when a brand new item is no longer available. However, the continuity of this exchange scheme needs the understanding and co-operation of our customers in relation to several important points: It is important to remember that "rebuild" does not mean "brand new". Rebuilding a unit involves stripping, cleaning, inspecting and re-assembling the unit. During this process, parts showing signs of wear will either be completely replaced or suitably renovated. However, it is not always feasible for major sub-components to be replaced with brand new ones, for example, an exchange engine will not have a new block. Due to the nature of certain product lines, some items can only be offered on a "one for one" exchange basis. This effectively means that you must offer us a viable unit before we can release a fully rebuilt item from our stock. In some instances we can only carry out reconditioning of your own unit. Our staff will inform you if this is the case.

All exchange units are subject to a surcharge. This surcharge serves two purposes; firstly, it acts as an incentive for you to return your old unit, and secondly it provides us with financial cover if your returned unit proves unsuitable for exchange purposes.

Whether or not your returned unit is suitable for exchange purposes cannot be ascertained until it is made available to us for inspection. As a general rule, suitable for exchange basically excludes any items that are beyond reasonable repair (e.g. crankcases pierced by a connecting rod) or units irrevocably damaged. We are also unable to accept units unless they are returned in whole, complete form (i.e. differential units which are returned partly stripped with no bearings and all the shims missing are not generally accepted), nor do we accept a "box of bits".

Surcharges will only be refunded once our core department has passed the item as serviceable. Under no circumstances can any exchange unit be shipped overseas until we receive your original unit. We have predetermined prices for our exchange units based on our experience of repair costs for a gearbox, axle or engine. Occasionally, however, the damage to the unit is so great that we will contact you before beginning work on your unit to advise you of any additional cost that may be incurred during the rebuild of the unit. We can return the unit (at your cost) if this proves unacceptable.

### 'Old unit' returns

Exchange items including reconditioned engines are subject to a surcharge that is refunded when a rebuildable unit (core) is returned. When you receive the rebuilt unit, attached to it will be a Core Return Authorisation Tag. This tag must be removed from the rebuilt unit and attached to the returned core in order to receive credit. Cores must be returned within 90 days of purchase in the original box, carton or engine cradle supplied with the rebuilt unit. Cores must be shipped clean and empty of fluids. Cores must be complete, assembled and rebuildable to receive credit or refund. You must pay all shipping charges for the return of the core and these charges are not refundable.

### Warranty

All parts are warranted against defects in materials and workmanship for a period of twelve (12) months from the date of purchase. The warranty does not cover failure resulting from incorrect installation or misuse; failure during any competition, motorsports or track events; failure of any, or caused by any, related component. The warranty does not cover labour charges, nor will a warranty settlement be greater than the cost of the original component. Should you need to make a warranty claim, please contact us immediately at the branch of purchase. We will then advise you as to the best course of action. With all warranty claims a copy of the original purchase invoice must be produced.

### Warranty returns

Parts that fail in use may be returned for 12 months from the date of purchase. Returns must be accompanied by the original invoice - no warranty claims will be paid without a copy of the original invoice. Return freight will be reimbursed. Electrical parts returned for warranty will be tested and if found functional, no return credit will be given and the part will be returned. Reimbursement is made by the original payment method. Complete the return form included in each order, pack the items securely and use the shipping return label supplied.

### Non-warranty returns

All uninstalled parts, in their original packaging may be returned within 90 days for any reason. A copy of the original invoice or the picking label (which is generally attached to the original packaging) must accompany the return. Return freight is paid by the customer. If the return is due to our error, the return freight will be reimbursed. Parts returned outside of this policy or in non-resalable condition may not be accepted or may be assessed a 15% handling fee. Reimbursement is made by the original payment method. Complete the return form included in each order, pack the items securely and use the shipping return label supplied.

### Customer service

We value your custom and wish to ensure that you receive the very best service. Every effort will be made to provide you with Quality Parts and Expertise in a relaxed, helpful and friendly manner. Should you consider the service you receive from us to be unsatisfactory, or you have any problems with the part(s) purchased, please advise a member of the sales team at the originating branch. If the matter is not resolved to your satisfaction, please e-mail our Customer Services Department at [customerservices@moss-europe.co.uk](mailto:customerservices@moss-europe.co.uk) or write to: **Customer Services, Moss Europe Ltd Unit 16, Hampton Business Park, Bolney Way, Feltham TW13 6DB England.** *We will do our very best to resolve the issue.*

## Morris Minor - A Brief History

Following from the success of the Series MM the Morris Minor went through numerous changes throughout its production life. The brief history below details some of the changes which occurred in each version of the Minor.

### Model

**Series II**  
**803cc A Series Engine**

### Chassis Numbers

(c) 160001 to 448714

### Years

**August 1952**  
**to September 1956**

The Series II Morris Minor saw some key changes in the Morris Minor's history. Following the merger of Austin & Morris companies to form BMC the Minor was fitted with Austin's 'A Series', 803cc engine, replacing Morris's side valve engine. Other notable changes that took place during the Series II production include: fitting of A type rear axle; a revised dashboard with a central speedo and glove boxes either side; slatted grille with repositioned side lights; Deluxe models with leather faced seats, heaters, passenger sunvisor & overrides were also offered. The Series II also saw the introduction of new body styles; the 4 door Saloon, Traveller, along with the light commercial models - quarter ton Van & Pick up.

### Series III

**Early 1000**  
**948cc A Series Engine**

(c) 448801 to 990289

**October 1956**

**to September 1962**

The introduction of the Minor 1000 brought with it more improvements. The engine's capacity was increased to 948cc giving improved performance desired by many motoring journalists of the time; the split windscreen was replaced with a larger single piece, curved screen; the rear screen was also enlarged; a dished & wire spoked steering wheel was introduced; horn & trafficator controls were moved to a stalk switch on the steering column, latterly indicators were introduced with an integrated warning lamp on the end of the stalk, the horn was repositioned to the steering wheel; larger side lights were also added during production.

### Series V

**Late 1000**  
**1098cc A Series Engine**

(c) 990290 to 1294082

**September 1962**

**to April 1971**

The Minor 1000 was further updated with the 1098cc A Series engine, again giving more power & torque, fitted with a new design of air filter; the body remained largely unchanged from the 948cc model but the wipers now operated in tandem and were fitted with longer arms & blades; external changes included the fitting of combined side/indicator lamp units; the fascia was changed to include the chrome & alloy surround for the speedo and a glove box lid added to passenger's side with driver's side open; two-spoke safety steering wheel introduced; redesigned interior trim with heat-formed vinyl panels.

## Serial Number Identification Plate Locations

The Car Number is stamped on a plate secured to the right-hand side dash panel.

The Car Number is stamped on a plate secured to the right-hand side dash panel.

The Engine Number is stamped on a plate secured to the right-hand side of the cylinder block.

The Rear Axle Number is stamped on the front of the left-hand axle tube adjacent to the spring seat.

The Gearbox Number is stamped on the top of the gearbox casing adjacent to the dipstick.

**Please note: In most circumstances Moss can supply both an OE (Original Equipment) part or an Aftermarket part. The Aftermarket part offers a high quality part but usually at a reduced price and in certain circumstances replaces the OE part when no longer available. The Aftermarket part is indicated by a letter "Z" at the end of the part number.**

Car Number Prefix Coding

Series II Models

CAR NUMBER PREFIX CODING	
The car number prefix comprises of a series of letters and numbers, presenting in code the model, body type, colour, class, and type of paint used, together with the number of the car.	
1st PREFIX LETTER - MODEL F - Morris Minor	2nd PREFIX LETTER - TYPE A - Saloon 4-Door    C - Tourer B - Saloon 2-Door    L - Traveller
3rd PREFIX LETTER - COLOUR A - Black    F - Beige	
4th PREFIX LETTER - CLASS 1 - RHD UK Only    3 - LHD 2 - RHD Not UK    4 - North America	5th PREFIX - PAINT 1 - Synthetic

15	12A1358	£0.35	GROMMET, rocker cover	2	
16	GUG705009VC	£1.06	GASKET, rocker cover	1	
17	12A1968	£3.95	LIFTING EYE (Fit lifting eyes for engine removal/replacement only).	2	
20	12A1950K	£84.95	ROCKER ASSEMBLY, recon/exchange 1 (Reconditioned rocker shaft assembly built with new shaft, rocker arm bushes).	1	
21	12A1950	£21.95	ROCKER SHAFT, with end plugs	1	
	12A1950Z	£11.95	ROCKER SHAFT, aftermarket	1	

Note: Original rocker shafts were located by the front pedestal. The front pedestal also acts as an oil feed pipe for the rocker shaft & rockers. Our rocker shafts are machined so they can be located by either the first or second pedestal. Ensure the pedestal selected for the front position has the small oil feed hole in the bottom face that feeds to the rocker shaft.

22	2K4608	£Call	PLUG, screwed	a/r	
23	6K878	£Call	PLUG, plain	a/r	
24	2A18	£0.80	WASHER, spring, double coil	2

67	JN2107	£0.16	NUT, locking, 1/4" UNF	1	to (c) 198689
	NT605041	£0.16	NUT, locking, 5/16" UNF	1	from (c) 198690
68	ACA8149K	£29.95	LINKAGE KIT, clutch mechanism, 5/16"	1	

Note: The original clutch linkage used 1/4" rods which were found to be too weak. With the introduction of 1098cc models the linkage mechanism was upgraded to use plates between the pedal & relay shaft and a 5/16" rod from the relay shaft to the clutch fork. Only the late 5/16" type linkage is available. It can be retro-fitted to early cars but the clutch pedal hole needs to be drilled out.

**Collapsible & Non-Collapsible (Solid) Spacers**

Pinion bearing pre-load was originally set by the use of a collapsible spacer between the two bearings. The correct pinion bearing pre-load is achieved when a rotational torque of between 11 & 13 pound inches (lbs. ins.) is required to rotate the pinion in the differential housing. This figure should only be checked when the seal is not fitted. It is attainable only when the pinion nut has been tightened sufficiently to 'nip' or pre-load the two bearings. It is not acceptable to over tighten the pinion nut and slack it off to obtain the correct bearing pre-load, if the spacer is over compressed then it must be scrapped, and a new one fitted.

The differential pinion may have had, at some time in its life, a solid spacer and shims fitted instead of the collapsible spacer; this is not uncommon. The solid spacer system was utilised on Morris Minors up to around 1959, after that the collapsible spacer system was used. The collapsible spacer is a far quicker (& therefore cheaper) method of obtaining pinion bearing pre-load and was adopted by many motor manufacturers.

Installing the solid spacer and shim system is time consuming because the entire assembled pinion must be fitted, tested, stripped and reassembled to adjust the bearing pre-load by the addition or subtraction of shims. Once set in this way the pinion bearing pre-load is impossible to change. Conversely, the collapsible spacer system can be adjusted after fitting if the pinion nut is removed and then refitted at a different torque setting. This means that service replacement of the differential pinion oil seal must be done with care, especially when refitting and re-torquing the pinion flange nut. A solid bearing spacer is offered for those who wish to convert to the more permanent solid spacer system. The solid spacer is part number BTA532X. Four different thickness adjusting shims are available as listed here.

42	WZX1310	£8.65	THROTTLE SPINDLE KIT (Comprises: 39, 44, 45 & gaskets).	1	
43	37H3043	£1.99	BEARING, spindle	2	
	AUD3079X	£4.25	BEARING, spindle, teflon	2	

Note: Use item AUD3079X when the carburettor body is worn around the throttle spindle. Reaming the boss in the carburettor body to 8mm allows the insert to be fitted, thereby bringing the hole diameter in the boss to the correct 1/4" internal diameter. New throttle spindles should always be fitted if these inserts are used.

44	WZX1320	£15.40	DISC, throttle	1	
45	AUC1358	£1.66	SCREW, throttle disc to spindle	2

### Damper Oil

#### Penrite 'Shock Oil'

Designed for use in lever arm and vane type shock absorbers. Shock oil 1 is a light SAE20, suitable for normal use in Armstrong lever arm dampers. Shock oil 2 is a heavy SAE20 that increases the damping rate and is more suited to fast road and competition use.

GGL9038X	£6.95	SHOCK OIL 1, 500ml	a/r
GGL9039X	£6.95	SHOCK OIL 2, 500ml	a/r

### Moss Shock Absorber Oil

This oil is custom blended for use in all Girling and Armstrong lever arm shock absorbers.

AAA149M	£12.50	SHOCK ABSORBER OIL, 16 fl oz	a/r

## Starter, Dynamo & Alternator

### Starter Motor

Type A	STARTER MOTOR, Lucas No. 25022 (With inspection band & threaded pinion).	1	to (c) 990289
Type B	STARTER MOTOR, Lucas No. 25079 (With inspection band & circlip pinion).	1	from (c) 990290
Type C	STARTER MOTOR, Lucas No. 25149 (Without inspection band).	1	later type

Note: The above starter motors are listed for reference only. They are all replaced by item 1, Part Number GEU9405.

1	GEU9405	£69.95	STARTER MOTOR, new	1
2	BH606131	£0.65	BOLT, starter to engine plate	2
3	GHF333	£0.16	WASHER, spring	2
4	GHF202	£0.10	NUT	2
5	47H5341	£Call	SPRING SET, brushes	1 types A & B
6	GSB102	£4.25	BRUSH SET, rectangular type	1 types A & B
7	GSB105	£4.45	BRUSH SET, wedge type	1 type C
8	7H5049	£2.75	BUSH, front	1 type A
9	511141	£1.85	BUSH, rear	1 type A
10	47H5340	£2.26	BUSH, front	1 type B
11	47H5346	£1.36	BUSH, rear	1 type B
12	7H7058	£Call	BAND COVER	1 type A & B
13	67H5010	£19.96	PINION AND BARREL	1 type B & C

### High Torque Starter Motor

These brand new powerful, lightweight starter motors are high torque. This means they are less likely to burn out under the strain of cranking your engine over, especially with high compression engines.

GXE4405XM	£174.95	STARTER MOTOR, high torque	1
-----------	---------	----------------------------	---

### Dynamo

Type A	DYNAMO, Lucas No. 22250	1
Type B	DYNAMO, Lucas No. 22258	1 from (c) 161001
Type C	DYNAMO, Lucas No. 22700	1 from (c) 962266

Note: The above dynamos are listed for reference only. They are all replaced by item 20, Part Number GEU3101.

20	GEU3101	£59.95	DYNAMO, C40, new	1

### Alternator Conversion

Update your Minor's charging system to an alternator with our comprehensive kit. An alternator provides more reliable charging and increased output which is particularly useful when several electrical systems are being used at once, such as lights, wipers, blower etc. The kit includes an 18ACR, 45 amp alternator, pulley, drive belt, brackets, hardware and comprehensive instructions. The car must also be converted to negative earth.

130-068	£104.35	ALTERNATOR CONVERSION KIT	1
GCB10825	£4.25	FAN BELT	a/r replacement

## Wiring Harnesses

### Wiring Harnesses: Minor Saloon & Tourer Models

Note: These looms are manufactured to the original specification with braided cables bound into a braided harness. Looms are also available bound with PVC tape.

50	MML101	£130.96	HARNESS, complete (Braided cables in a braided harness).	1	Minor SV E901 on dipping reflector headlamps & stop lamp (1948-49) Minor SV from (c) 501
	MML102	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	
	MML103	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	
	MML104	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	(1949-52) Minor SV from (c) 63822
	MML105	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	
	MML106	£50.95	HARNESS, sub for flashers (Braided cables in a braided harness to fit flashing indicators).	1	(1948-61) (as on export cars)
	MML107	£40.96	HARNESS, sub for flashers (PVC cables in a braided harness to fit flashing indicators).	1	
	MML201	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	(1952-53) Minor Series II 803cc 4 door with main beam w/light RHD - from (c) 139175 LHD - from (c) 138415
	MML202	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	(1952-53) Minor Series II 803cc 2 door with main beam w/light from (c) 140823
	MML203	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	(1953-54) Minor Series II 803cc with offside speedo from (c) 221763
	MML204	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	(1954) LHD export models with offside speedo relay flashers & twin horns to (c) 286440
	MML205	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	(1954-55) Minor Series II 803cc central speedo, coil on bulkhead from (c) 286441
	MML206	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	(1955-56) Minor Series II 803cc 2 door coil on dynamo from (c) 352300
	MML207	£222.95	HARNESS, complete (Braided cables in a braided harness).	1	(1955-56) Minor Series II 803cc 4 door coil on dynamo from (c) 352300
	MML208	£179.95	HARNESS, complete (PVC cables in a braided harness).	1	(1956-57) Minor 1000 Series III 948cc 2 & 4 door from (c) 448801
	MML209	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	
	MML210	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	
	MML211	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	
	MML212	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	
	MML213	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	
	MML214	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	
	MML301	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	
	MML302	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	

### Wiring Harnesses: Minor Saloon Models - Originally PVC Cables

Looms in this range were originally supplied with PVC cables bound into a braided loom. They are available in a choice of either the original braided binding or PVC tape.

MML303	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	(1958-61) Minor 1000 Series III 948cc 2 door from (c) 654750
MML304	£136.96	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1	
MML305	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	(1958-61) Minor 1000 Series III 948cc 4 door from (c) 654750
MML306	£136.96	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1	
MML307	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	(1961-62) Minor 1000 Series III 948cc 2 & 4 door with relay flashers from (c) 925555
MML308	£144.95	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1	
MML309	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	(1962-63) Minor 1000 Series III 948cc 2 & 4 door with relay flashers + lucar connectors from (c) 962266
MML310	£144.95	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1

**Batteries, Wiring Harnesses & Fittings (Continued)**

**Wiring Harnesses: Minor Saloon Models - Originally PVC Cables**

MML501	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	(1963-64) Minor 1000 Series V 1098cc 2 & 4 door with amber flashers & pull type type starter from (c) 1043326
MML502	£144.95	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1	(1965-70) Minor 1000 Series V 1098cc 2 & 4 door with key start & dynamo from 1082280
MML503	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	(1968-71) Minor 1000 Series V 1098cc 2 & 4 door with key start & alternator from (c) 1192909
MML504	£144.95	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1	
MML505	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	
MML506	£144.95	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1	

**Wiring Harnesses: Minor Van, Pick Up & Traveller**

MML215	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	(1954-56) central speedo & splitscreen, Van/Pick up from (c) 5230 Traveller from 233795
MML216	£207.95	HARNESS, complete (Braided cables in a braided harness).	1	(1956) central speedo, Van/Pick up from (c) 21300 to 49767
MML311	£164.95	HARNESS, complete (PVC cables in a braided harness).	1	(1956-60) 1000cc 948cc no trafficators, Van/Pick up from (c) 49801 Traveller from (c) 448801
MML312	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	1960-62 with trafficators
MML507	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	(1962-63) 1098cc with relay flashers, Van/Pick up from (c) 148974 on Traveller from (c) 990294
MML509	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	(1964-65) with amber flashers & pull type starter, Van/Pick up from (c) 158974 Traveller from (c) 1043326
MML510	£144.95	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1	(1965-70) with key start & dynamo, Van/Pick up from (c) 177160 Traveller from (c) 1082537
MML511	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	(1965-70) with key start & alternator, Van/Pick up from (c) 177160 Traveller from (c) 1082537
MML512	£178.96	HARNESS, complete (PVC cables in a braided harness).	1	
MML513	£144.95	HARNESS, complete (PVC cables wrapped in PVC tape harness).	1

## Windscreen Wipers, Washers & Fittings

### Wiper Motors - The History

Note: There were various specifications of wiper motors fitted to Minor models during production. These original items are no longer available. Please refer below to see items currently available.

8D5958		WIPER MOTOR ASSEMBLY	1	
301435		WIPER MOTOR ASSEMBLY	1	from (c) 162444
17H2707		WIPER MOTOR ASSEMBLY	1	from (c) 448801
				110° wipe
17H5360		WIPER MOTOR ASSEMBLY	1	to (c) 939635
				100° wipe
57H5552		WIPER MOTOR ASSEMBLY	1	from (c) 939636
				100° wipe
27H2408		WIPER MOTOR ASSEMBLY	1	from (c) 1039564
				120° wipe

### Wiper Motors - How We Sell Them Now...

Note: Due to scarcity of wiper motors we can only offer a reconditioning service to the Customer's Own Unit (C.O.U.). Customers must remove, and retain safely, the drive gear, link & ferule before submitting unit for reconditioning service.

## Seat covers and trim panels

Part of the Minor's charm is its simplicity. Throughout production the Minor featured a smart but functional interior which has helped the Minor retain much of its charm.

The interior trim went through a number of style changes throughout production, particularly between 1956 & 1964; these changes mainly occurred to the seat cover and trim panel designs.

We now stock the majority of interior trim panel designs for all Minor models from 1949-1971, available in leather or vinyl. Please see pages A28-A40 in the accessories section of this catalogue for our full range of Morris Minor seat covers, trim, headlinings, sun visors, fittings, parcel trays & gloveboxes. Series MM and series II trim are only made to special order; please contact us for more information.

Porcelain green

Please note: Colours may vary slightly to samples shown here, due to the limitations of the colour printing press, and should be used as a guide only.

## Carpet sets

We offer a range of carpets to suit the various models of the Minor, from the early MM series to the Van & Pick-up models.

Series MM & Series II are manufactured to the original design with stitched contour pieces over the tunnel and wheel arches. These carpets sets are only made to special order; please contact us for more information.

For Series III & V models we offer a moulded carpet set available in selected colours. These carpet sets feature a contoured tunnel and front wheel arch carpets. The tunnel carpet is designed to cover the handbrake bracket & cables giving a smart & tidy appearance. The footwell mats are backed with a special hard wearing PVC coating and feature fully bound edges with a heel mat on the driver's side. The non-moulded carpet sets are made from a tufted pile carpet and are stitched around the tunnel to form the shape. Due to the texture of the carpet these seams are concealed, giving a good finish. Carpet sets include instructions & fittings. Adhesive sold separately, please see our Restoration Tools catalogue for more information.

Van & Pick-up models have some unique trim components, including carpets, seat covers and door panels. Please see page A40 for more information.

## EUROPE'S CLASSIC MOTOR OIL

**D**ynolite offers a broad range of oils and lubricants for Veteran, Vintage and Classic cars & motorbikes. Dynolite lubricants are blended to exceed the original vehicle manufacturer's specifications. They are formulated from high quality components and are only combined with additives specially selected for their compatibility with metals and components used in older vehicles, including suitable levels of ZDDP to combat wear, often reduced in modern oil blends. Most modern oils do not cater for these older technologies.

Dynolite's philosophy stands out for its range, offering specific lubricants for engines, gearboxes, steering boxes, as well as greases. In terms of mechanical protection, Dynolite lubricants are far superior to those usually found on the market for the simple reason that they have been specially developed for your historic vehicle. Therefore, you benefit from increased protection, higher oil pressure combined with a lower degree of acid attack and corrosion, reducing gum and sludge formation.

See the Moss 2014 Restoration Tools catalogue for details of the full range of Dynolite oils and lubricants.

# DYNOLITE

EUROPE'S CLASSIC MOTOR OIL

PARIS MOTOR DREAM

## Moss Motor Dream Paris

### New Moss branch opens in France

**M**oss is pleased to announce the acquisition of British marque specialist, Motor Dream of Paris, France. In 2014, 'Moss Motor Dream Paris' will join our four UK branches, London, Bradford, Bristol and Manchester.

The acquisition of Motor Dream will provide Moss with a branch in Europe enhancing our service to European customers. British classic car enthusiasts in Europe will now

have easy access to our extensive parts range for British classic cars.

## Rebuild with Moss

*Save 10% for up to 2 years...*

**SAVE 10%\* ON YOUR REBUILD PARTS & ACCESSORIES FOR THE NEXT YEAR (2 YEARS ON THE PLATINUM REBUILD)**

**The Gold Rebuild Programme\*** gives you 10% off your orders for 12 months after an initial spend of £800 (+VAT).

**The Platinum Rebuild Programme\*** gives you 10% off your orders for 24 months after the initial purchase of a bodyshell (from Moss or another supplier). For both Rebuild Programmes you will be assigned your personal sales advisor and your personal Rebuild card and welcome letter will be sent to you.
